To whom it may concern

I'm Yuki from 12300 33<sup>rd</sup> Ave NE Seattle, WA. I am concern about the project above for the parking situation of a 4-story apartment building with 46 small units. Within a few blocks around my condominium, a few apartments with at least 20 units each without providing enough parking space for the residence already. This project will give us enough concerns that we will battle for parking space in our neighborhood in the near future.

Please consider solution or mitigation of the situation as going through this project.  
I really appreciate your support in my neighborhood.

Yuki
